

ENDANGERED ECOLOGICAL COMMUNITIES FIELD TRIP

Visit some of the region's major EECs on this free bus trip

Join local bush regenerator Marcus Burgess for a guided tour of some of the region's Endangered Ecological Communities (EECs) & significant vegetation communities

The field trip will cover information such as:

- Brief geology and how this (and other factors) influences the plants that will grow
- Species commonly found in these communities
- Any threatened/endangered plant species of significance within these communities
- Any threatened/endangered fauna using these communities for habitat
- Why these communities are under threat
- What we can do to preserve them/why it's important to protect them

When: Saturday 1st June 2013, 9am - 2pm

Where: Departure point for bus trip will be Oak Flats Train Station, Stanford Drive, Oak Flats.

Cost: FREE, Lunch will be provided

RSVP: To book a place on this field trip email Megan at communitysupport@conservationvolunteers.com.au or phone 4229 7526

LIMITED PLACES - BOOKINGS ESSENTIAL

This field trip is ideal for private landholders who may be managing EECs, students, environmental volunteers and any other interested community members
