Hooka Pt and Fred Finch Parks great for sport, bike riding, fishing, a good walk, bird watching, and walking the dog, and all in a beautiful setting right on the Lake shore. The winds and tide, and sometimes even a human litterer, mean there is a build up of drink bottles, food wrappers etc plus the odd supermarket trolley & car wheel. The litter accumulates particularly near the water & is very bad for the Lake. Regular cleanups of the rubbish are what we need to keep the area healthy, looking good and to show that we love it!

Hooka Pt and Fred Finch a place for Berkeleyites & Wollongong to be proud of!

*Please come and help Sunday 3rd March even if just
for an hour or so.*

We have registered with Clean up Australia and have the support of Wollongong City Council and WCC Neighbourhood Forum 7.
